

The Plan

Sculpture Project

Two local artists have been commissioned to erect the sculpture using a five-year plan. The sculpture will be built in four phases.

Phase one - *The concrete base*

This 4' x 4' x 6" bottom with a 3' x 3' x 3' block on top will serve as the base. The concrete has been donated to CHSM and the work will be done by USD 266 maintenance crew with assistance provided by CHSM students.

Phase two - *The granite letters*

The CHSM letters will be constructed of Missouri red granite.

Phase three - *The eagle*

A bronze eagle will be placed on top of the letters.

Phase four - *The climbing student*

A bronze life-size student will be climbing the letters.

The plaque at the base of the sculpture will read:

"This symbolizes the struggles that CHSM students have experienced as well as their ever hopeful goal of soaring to the top."
